Global Scenario

India enjoys an important position in the global pharmaceutical sector and is the largest provider of generic drugs globally. Indian pharmaceutical sector industry supplies over 50 per cent of global demand for various vaccines, 40 per cent of generic demand in the US and 25 per cent of all medicine in the US. India's pharmaceutical exports stood at US$ 17.27 billion in FY18. The country accounts for around 30 per cent (by volume) and about 10 per cent (by value) in the US$ 70-80 billion US generics market. Pharmaceutical exports include bulk drugs, intermediates, drug formulations, biological, Ayush & herbal products and surgical. Despite prevailing challenges in the Indian Pharma industry, 58000 additional jobs opportunities are likely to be created as the industry is expected to grow up to 45% by 2025.

Why Pharmacy at SGT?

- SGT College of Pharmacy (COP) has acquired the status of one of the most aspired institutes in North India, for imparting the best Pharmacy Education.

Community Services

College of Pharmacy displayed many activities which have been done for villagers in community. The objective of this was to make the visitors aware about the activities which have been performed by Pharmacy Professionals. It consists of various activities such as awareness about antimicrobial resistance, safe disposal of unused medicines, safe and effective medicines by our students. They were also made aware about the future programs to be organized for the villagers’ likely patient based medication error, knowing your disease, benefits of medication adherence and SGT Dawa Parampara Kendra.
